Who was Sir John Soane?

His job was to draw plans for new buildings.

He made the plans for the Bank of England.

He liked to spend his money on art.

He bought so many things that there was no more room in his house.

He bought the house next door and filled that up too,

so he bought the house next door to that as well.

He wanted his house to be kept as a museum.

We keep it looking like it did when he lived there.

The museum has 4 floors.

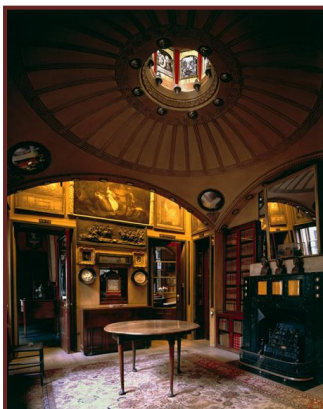

There are 3 floors of rooms you can visit.

All the rooms have lots of things to look at.

Sir John had rooms for

- reading
- eating meals
- working
- meeting people
- looking at pictures

On the bottom floor there is a dark space full of old statues, vases and coffins for mummies from Egyptian and Roman times.

The staff are happy to answer any questions you have about the museum.

There is a shop in the museum where you can buy something to remind you of your visit.

There are toilets on the bottom floor.

There is a cafe in the park in front of the museum.

It is called the Fields Bar and Kitchen.
